

General

Provide MYSON ECMH3-1 CONTEMPORARY DESIGNER electric towel warmer including accessories as scheduled. Contemporary Designer towel warmers are made of brass tube and fittings in a variety of finishes. The ECMH3-1 electric towel warmer is ETL approved.

Each ECMH3-1 towel warmer is constructed with 1-1/2" "D" shaped vertical and 1" oval convex horizontal bars. Integral wall mounting lugs are welded onto the back and an adjustable four point mounting kit in a matching finish is included. The towel warmers are equipped with an ISO 9001 certified PTC smart thermo control element and a back lit on/off rocker switch (Figure 1). Each unit is filled to a precise level with a glycol based heat transfer fluid for optimum convective flow, providing a constant surface temperature. Every unit is factory tested to insure the finest quality product with design temperature output.

Standard Connection:
single gang box

Electrical Specifications:
120 Vac 60 Hz 75/100W*

Weight:
20 lbs.

Figure 1
